Overview

The Xcel-Arc 7228 HOPHW is a low cost, high quality automatic welding helmet that's suitable for almost all welding applications. The 7228 HOPHW includes an externally operated Grind Mode function, as well as True Colour™ and the latest Comfort Headgear design. The 7228 helmet features two independent arc sensors with solar powered cells, features external shade adjustment with variable shade 9-13 and is TIG operable to 5 amps. Internal controls include adjustable time Delay to clear state and Sensitivity for triggering to dark state. The T IC helmet is a lightweight and comfortable design offering excellent neck coverage and protection whilst the unique shape design helps channel welding fumes away from the helmet and face area. DIN standard approval guarantees maximum eye protection during welding. The high quality and low cost of the 7228 HOPHW makes it without doubt the best value for money entry-level automatic welding helmet on the market today. The 7228 HOPHW is backed with a 2-year warranty for your peace of mind.
